Liechtenstein

1912 to 2001

© Alexander Barthel

Some notes on this album text

This album text contains the postage stamps that were issued in Liechtenstein between 1912 and 2001.

In a joint, continuous annual sequence, the definitive stamps, commemorative stamps, surcharged stamps (semi postals), airmail stamps, and vending machine stamps are considered. This includes not only the souvenir sheets but also their individual stamps, but not the miniature sheets.

For the ATM franking labels, three boxes per issue are provided, which can be adjusted to the requirements of individual collection preferences using AlbumEasy.

This is a standard album, where variations in perforations, paper, and color, as well as gumming, are not taken into account. The same applies to unofficially imperforate issued variations.

The BoB section contains postage due stamps and official stamps.

Stamp illustrations are kept in black and white and significantly reduced in size compared to the original stamps so as not to distract from the actual stamps in the collection. These settings can be easily adjusted using the AlbumEasy program.

For stamps with an identical design and denomination differing only in color, the color is specified for easier identification in black and white representation.

This English album text is designed for letter format. Adjustments to other formats (i.e. Scott International or Speciality, MINKUS, A4 or A3) can be easily made, but this may require adjustments to the page layout as well.

This album text is free of charge and intended solely for private use and modification. The copyright remains with the author. Commercial use, even with modification, is prohibited.

The album text has been carefully prepared, with apologies for any remaining errors or instances of awkward English phrasing, as English is not the author's native language.
