SELOS FISCAIS DA REPÚBLICA

As primeiras estampilhas emitidas pelo Governo Republicano e impressas na Casa da Moeda, entraram em circulação em 8 de abril de 1890. Até essa data, estiveram em uso as do Império, que nunca saíram de circulação quando eram emitidos novos padrões dos mesmos valores. Nos primeiros tempos da República elas continuaram circulando, junto com estampilhas republicanas da primeira série chamada " Cruzeiro do Sul".

Uma **estampilha fiscal** ou um **selo fiscal** é uma pequena etiqueta adesiva usada para demonstrar o pagamento de impostos ou taxas em documentos, tabaco, bebidas alcoólicas, medicamentos, cartas de baralho, licenças de caça, registro de armas de fogo, entre outros. Normalmente, compram-se estampilhas emitidas pelo Estado, pagando-lhe assim o imposto, que são apostas nos itens tributados como elemento necessário à sua venda ou, no caso de documentos, como parte do preenchimento do formulário para a obtenção de um serviço governamental.

As estampilhas fiscais parecem-se muito com selos postais e, em algumas ocasiões na história, foi possível usar selos postais para fins de arrecadação de receita e usar estampilhas fiscais para enviar correspondências.

Sobre o álbum:

Elaborado pelo colecionador João Sanches e disponibilizado gratuitamente na internet para aqueles que desejarem organizar dessa forma a sua coleção. Agradecimentos especiais a Luiz Reginaldo Fleury Curado, José Baffe, Sérgio Laux, RHM, José Luíz Fevereiro, José Renato, João Abib, Ricardo dal Pasqual, Cláudio Neumann, Mário Celso Rabelo Orsi Jr., Remígio de Bellido, Gilberto Tenor e a todos os filatelistas fiscais pioneiros nesse estudo.

Esse trabalho não tem fins lucrativos e é sujeito a erros e críticas, estando seu desenvolvedor disponível para sugestões e orientações.

Foi utilizado o seguinte livro para orientação no desenvolvimento desse álbum:

- Estampilhas Fiscais – O Imposto do Selo no Brasil – República, Luiz Reginaldo Fleury Curado, 2019.

Algumas inconsistências foram encontradas durante a preparação do álbum, respeitosamente indicadas nos rodapés de cada página, conforme necessário.

As numerações conforme o catálogo estão inseridas no interior dos quadros a serem colocados seus respectivos selos.

A numeração dos selos segue a sequência do álbum anterior com as estampilhas do Império.

Ao contrário dos selos postais, facilmente adquiríveis, as estampilhas fiscais tinham sua circulação controlada e o estoque é quase inexistente. Por isso, sugere *Walter Heckman* e *Akerman*, que se abandone a ideia de uma coleção completa de todos os valores (o que pode tornar a coleção enfadonha) em favor de apenas alguns valores representativos da emissão, acompanhada de documentos selados ou papéis selados, que a tornariam mais interessante.
